RE:

I am honored to be able to write you (add name) with a request so important and dear to me and so many of your constituents... As of June 13, 2022, we are 25 MILLION strong human beings determined to end animal cruelty in our beloved country... having been brought together by the Animal Charity "www.POATS.org" The "Currin Foundation – Pulling Out All the Stops Charity." A registered (501)(c)(3) in NY State and located in New York City.

The founder, Charlie Currin, is booked on thirteen upcoming day time and late-night talk shows to introduce our mission to the country. As you well know, we are going up against cruel and powerful industries, and we look forward to the challenge. We are hoping our 25 Million supporters become 50+ Million with your help, and the tv exposure, and there will be no stopping us then and now ending all animal cruelty.

Mr. Currin, a retired lifelong musician, spent the entire pandemic posting on thousands of social media pages explaining his mission and how we humans, together, can change animal cruelty. And we Americans have responded with such heart felt enthusiasm and verve... Entire families, entire schools, colleges, Churches, Synagogues and Mosques, retirees, nursing homes, bridge clubs, rock bands, even celebrities, etc... millions of Americans sick of what is happening.

As you are well aware, it is a very difficult time in our country and world... and the old saying is truer than ever... "Choose your battles wisely." And 25 million of us have done exactly that and chosen our battle: United to end all animal cruelty.

I hope you agree that we can no longer turn a blind eye to the horrendous abuse, suffering, and cruelty to God's creatures.

The euthanasia of 8,000 dogs EVERY HOUR because of unregulated puppy mills, lack of affordable spay and neuter accessibility, no laws, etc. Perfectly healthy, innocent, loving dogs of all ages murdered because they have nowhere to go.

The horrendous treatment of animals in Factory Farming with 25 MILLION killed and slaughtered DAILY, along with 125 MILLION aquatic animals DAILY... A total of 150 MILLION ANIMALS KILLED DAILY for food in the USA. We understand people are not going to stop eating meat, but the animals cannot continue the horrendous treatment from birth to death in these places...

The horrific treatment of animals in Animal Experimentation Laboratories. 110 MILLION killed every year and this practice now deemed totally unnecessary with modern technology. Please read the article on the Blog Page.

100 MILLION Feral cats in colonies multiplying out of control...

70 MILLION stray animals living on their own in horrendous conditions...

80,000 horses a year trucked and flown - shipped from the US to Mexico and China slaughtered for human consumption.

400,000+ animals dying in factory farming fires in 2021.

And the list goes on and on... On and on... as we have stood silent... but no longer... We are giving voice to this outrageous cruelty...

Mr. Currin's quote for stray animals, factory farming, lab animals, etc...

"They are born into cruelty, they live their entire lives in cruelty, and they die in cruelty... and while some people turn a blind eye to their suffering, many more of us humans will not... and join together to stop it." Charlie Currin - 2018

We caused it and we can fix it.

I am asking you to support our cause and convince your supporters and colleagues to do the same and join us. Only TOGETHER can we ensure this happens.

Please visit our website and learn what needs to be done first and how we can achieve this starting now... We all will be watching and reading with great interest how humane animal laws are being introduced and passed, how laws that allow any animal cruelty and suffering are changed and voted out, and new protections added.

I look forward to hearing back from you and thank you for your time and support... and thank you for your service to our country. Wishing you and your family safety and good health during this unprecedented time in our world.

Thank you for your time and consideration of our important mission.

Sincerely,
